Uherský Brod

Annual report 2008

Introductory word of Head director

Dear fellow-citizens and friends,

Together with my team of co-workers I put a summary of our organization activity in the year of 2008 before you. An evaluation of the last year and issuing of the annual report is an opportunity for us to thank to Regional Caritas Uherský Brod staff, volunteers, Caritas Council, supporters, the long and the short of it to all who contributed in any way to good things which we were able to do for citizens of our deanery in need. Above all I would like to thank to city's mayors, especially to those who we deal service operating and entrusted Caritas facilities with, and in the same time I would like to ask them also for keeping goodwill. Great thanks belong to priests of our deanery especially for the spiritual support of our clients and our staff. Their contribution to our clients' satisfaction and spiritual formation of our staff is not small.

The mission of the Regional Caritas Uherský Brod is the service of merciful love to fellows in need regardless of their race, nationality, churchmanship and political affiliation. Probably the best-known biblical text about love remains to be the 13th chapter of the First Epistle to the Corinthians. Love is the driving force in our service to people in need and therefore let me cite shortened quote of this Epistle in this respect: "Love is patient, kind, it does not envy, love does not boast, it is not proud. Love never fails." Our vision and biggest wish for the future is to provide quality social services to our clients according to their needs and to support the quality of their life in the greatest possible extent.

I state with a pleasure that the Regional Caritas in Uherský Brod dispose of a quality and professional staff team that is the guarantee of such service. Believe us that we often recall and strongly realize words of Jesus in Mark's Gospel: "You shall love your neighbour as yourself." I truly wish that politicians elected by us even in a time of economic crisis would take a decision about social service support with all the responsibility so that we would not have to state sadly in a year that they have created a new economic theory: "Destroy financially your neighbour". Dear friends, I will look forward to next cooperation with you.

Yours faithful

Ing. Petr Houšť

Head director

Word of Deputy director

Dear readers,

Another year of our work is behind us so let me therefore look back a little bit. In January, already a traditional carnival has taken a place in the Culture house in Uherský Brod. In February we arranged the first Caritas Ball in Korytná, which yield went to care quality improving in the local residential house. In September we celebrated the Caritas Day when we revered the memory of the caritas patron, St. Vincence de Paul, together in the parish church. In September a tournament among our seniors in a game "Člověče, nezlob se" also took place in Horní Němčí. In October the film projection for the Magi Carollers came about and in November we celebrated the tenth anniversary of St. Guardian Angels Caritas Senior Home in Nivnice opening. In December St. Nicholas party for children of our staff members took place in the hall of Dominican monastery. That is just a small list of our activity in the year of 2008.

With help of sponsor gifts we were able to get a new car for lunch distribution of the social care service. In the end of the year the preparation for starting of new websites, which now successfully work, took place. During last two years we were able to build quite a good technical background in the area of computer and communication technology. Precise and as quick flow of information as possible is very important for the quality of our work because only in this way we can provide quick and adequate availability of our services. Futhermore we have supported the education training of our staff. In the year of 2008 we invested nearly 300 000 CZK into education.

I would like to mention also the “Caritas Choir” foundation, which is composed from Caritas staff mainly. By singing and dancing we accompany mostly spiritual and social events arranged in the field of our Caritas action.

Thank you very much to all for help and cooperation.

Ing. Ferdinand Kubáník,

Deputy director

Word of spiritual Father

Seeing men and women in red waistcoats and cars signed “Caritas” is a matter of fact for us. Hardly we can imagine a life without them in the city and surrounding region. A life of a man is not just “forever youth” but also the autumn of the life and there is a merciful help most needed above all. Regional Caritas Uherský Brod staff members provide apart from professional help also a sort of “added value”- that is Caritas = merciful love, which every client is to feel during visit.

From our point of view thanks belong to all Caritas staff above all and acknowledgements for all what they do. A volunteer charity transformed gradually into the Caritas, professional by all means. During the 15 years of existence a lot of good things came right, tenths of big projects and scores of small ones. All could be realized only thanks to the support of Ministry of Labour and Social Affairs, Zlín Region, the City of Uherský Brod, surrounding municipalities, sponsors and your prayers.

God bless you.

Father František Král,

Dean

Word of Caritas Council Chairman

The Caritas Council is an advisory body of the Head director. The President of Archbishop Caritas in Olomouc designates it on the account of a submitted Head Director of Regional Caritas proposal and a competent spiritual father recommendation. Its mandate persists for 2 years. Acting of the Caritas Council is directed by the order of procedure, issued by the founder of the Regional Caritas in Uherský Brod – the Archbishop Caritas Olomouc. The Council is not just an advisory body but it discusses and expresses itself to economic results of the Regional Caritas in Uherský Brod and to all important decisions of the Head director as well (e.g. opening or closing of a service, auditor report and statements, requires different explanations from the Head director or other staff if needed). In the area of controlling activity it sets tasks for the controlling body – Audit Committee, which is an advisory body of the Council.

In this way I would like to express heart-felt thanks to all members of the Caritas Council and Audit Committee above all, whose mandate has expired in the year of 2008, for their very devoted and gratuitous work and free time that they voluntarily devoted to acting in the Council and Audit Committee.

Sincere thank you belongs as well to all Regional Caritas staff members for their personal and professional approach to clients, for their high-quality work and help with improving conditions for social care providing, for invaluable help to neighbours, which is based in high qualifications and Christian love, and is a very good sign of the Regional Caritas in Uherský Brod. Thanks belong to representatives of municipals where Caritas social services are provided for distinct relationship improvement and to the representatives of the City of Uherský Brod, which is the closet executive body for redistributing of financial aids in the area of social care services and is the coordinator of these services in our region. Our effort is to ensure that the work of the Caritas Council would not be just a formal issue. Thank you for a great readiness of Regional Caritas leaders. We meet with the Head director of Regional Caritas and his

Deputy very often even beyond sessions of the Caritas Council and clearly discuss how we could solve some problems and improve quality of services for those who need them the most.

The children sang along together and promised to St. Nicholas that they would not be naughty so that he could come among them in a year again.

Based on the increased demand and also on the interest of inhabitants of the region to take social services from the Social Care Service (and as it also resulted from the community plan of the city of Uherský Brod) we extended the capacity of this service in the last year and also adjusted hours when this service is provided. In the year of 2008 Social Care Service was provided to 532 users from the region of Uherský Brod. Thanks to sponsor gifts from companies in our region we got a new car in last year that is above all used for providing lunch supplies to users of our service. Further, thanks to financial aids from "The Magi Gathering" we were able to extend our facilitation deposit with an eating table and electric positioning beds. In the year of 2008 a few interesting events took place. Apart from celebrating of Mothers' Day, Children Day, Christmas, Easter and so on, which is already a tradition in the Asylum House, the Open Day took place as well intending to present the mission of our service to general public. In May we arranged a trip to the Lešná Zoo, in July it was a camp for children. We plan to repeat similar activities because of good acceptance.

The facility established closer co-operation with project of the Caritas, Czech Republic, called "Magdala" that arranges help to victims of domestic violence through consultancy and secret detention among others. Thanks to support of the City of Uherský Brod and the Committee of Good Will - The Olga Havel Foundation we were able to renovate a part of dwelling units of the Asylum House. In this year the project has been included into the public gathering "Children to children". This yield will be devoted to support of free-time activities of children.

During Christmas time we visited nativity scenes in Vlčnov, Hluk, Ostrožská Lhota and Kunovice. Not just seniors but even their grandchildren took part of the tours. These events were very cheering and joyful. The "Little Coffee-room for Seniors" has been held once a month in this year and has been extended to dancing accompanied by live music. Once a month we realize a lecture with health, science or popular topics or lectures focused on the protection of seniors in a life danger and the protection of property. Four lectures a month we devote to theological topics according to the wishes of users as well as we arrange science trips. We want to continue in craftwork such as lace work and making actual seasonal decorations.

These activities were overlapping and disturbing mutually. Since March 2008 we have held an intensive discussion about assigning of proper spaces, where the activity of the Crisis Centre could proceed without complications, with city representatives. This Crisis Centre service has been quitted by the decision of the Regional Office of Zlín Region n. KUZL 20702/2009/SZD/Kráže on the date of 6 April 2009 due to unsatisfactory spaces. As soon as we assign these spaces in the cooperation with the city, we are ready to apply for registration again and start service providing immediately again.

Siloe Club came into being in the year of 2000 as a community focused on help for people addicted to alcohol, drugs, bets and gaming machines. An addiction destroys spirit and body – it is a serious illness that needs to be cured. An addicted person cannot cure himself alone. He can succeed only with help of friends, specialists or a believer with help of God.

The club is leaded under the aegis of the Regional Caritas Uherský Brod with an external psychologist supervising. The meeting is held every Wednesday at 18:00 in the building of the Regional Caritas and is strictly anonymous. Help is offered through a discussion among members. There is a psychologist, psychiatrist and the Siloe Club adviser available at the request. We are orientated to rehabilitation centres in Kroměříž, Brno, Opava, Bílá Voda and to the therapeutic community of Pastor Bonus Podlesí for drug addicted in Northern Moravia.

An addicted person and his family need spiritual strength and faith in the success of the cure. Our Siloe Club offers help to all who want to overcome this, far from easy, task.

The Caritas Kitchen with lunchroom has been operating since April 1998. We cook approximately 500 lunches daily at weekdays and 200 of them at weekends and holidays. We prepare quality Czech meals in a modern equipped kitchen. We cook two kinds of meals, one is always suitable for a diet. We give off the meals in the lunchroom as well as to meal carriers. We distribute meals from the kitchen to all Caritas Residential Homes run by us and also to the clients who have health difficulties or to seniors who are not able to take care about their boarding on their own any more. This service is provided all-year long, including holidays, not just in Uherský Brod but also in surrounding municipalities.
